

Fact Sheet: NATHERS Climate Zones 9, 10 & 11

NATHERS Climate Zones 9, 10 & 11 NSW Provision

New **7-star energy efficient standards** are here,
but your build may only need to reach **6 stars!**

Find out if you're eligible:

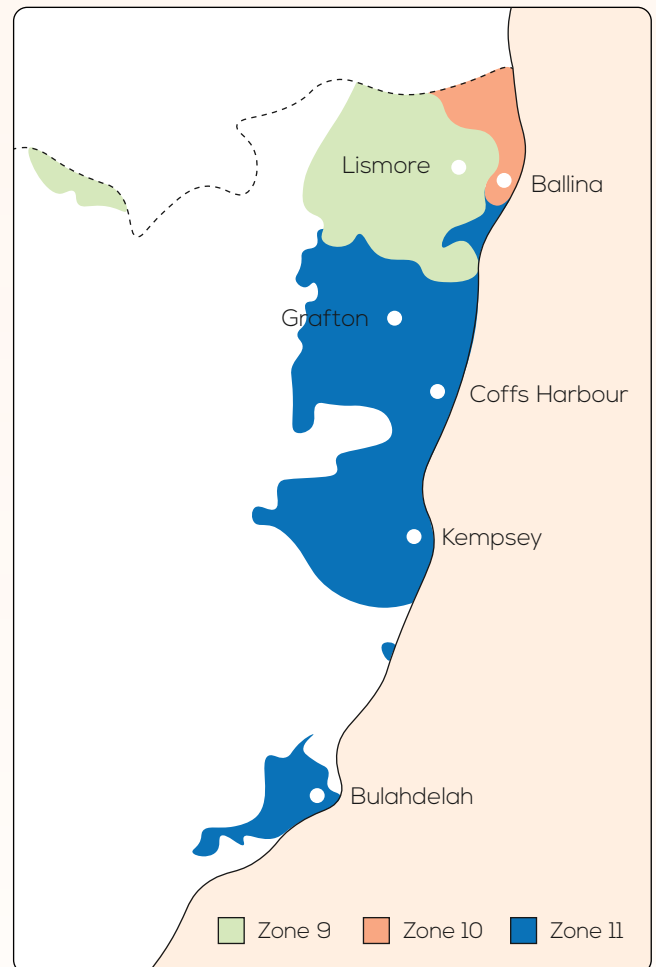

- 1** Are you building in **NSW**?
 - a. Yes** - move to question 2.
 - b. No** - your build may still need to reach 7 stars.
Visit the Bradnam's website for more information.

- 2** Are you building in climate zones **9, 10** or **11**?
Visit the next section to learn how to determine your build's climate zone.
 - a. Yes** - move to question 3.
 - b. No** - your build must meet a minimum 7 star rating.

- 3** Are you building a class **1, 2** or **4 building**?
 - a. Yes** - there are no changes from the current thermal comfort requirements. This means your build must meet a star rating greater than or equal to **6.0**.
 - b. No** - your build must meet a minimum 7 star rating.

How to Determine Your Build's Climate Zone:

Head to https://www.nathers.gov.au/themes/custom/govcms8_uikit_starter/climate-map/index.html and input your build's postcode or suburb.
