WHY DOUBLE GLAZED?

Elevate your home's energy efficiency in an instant with Bradnam's coveted Double Glazed Windows and Doors. The favoured solution for builders, homeowners, and architects across Australia – this upgrade is the key to achieving a mandatory 7 Star rating.

Leverage the power of advanced thermal performance, and feel the difference of smaller electricity bills and enhanced comfort, with Bradnam's double glazing.

WHAT IS DOUBLE GLAZING?

Double Glazed Windows and Doors are suitable for all climatic conditions across the country.

In **Heating Climates**, they utilise insulating technology to keep warm air inside; whereas in **Cooling Climates**, they harness thermal barriers to keep hot air at bay.

This means that residents require less artificial heating, resulting in a reduced carbon footprint and less energy consumption.

The reason – Double Glazed windows and doors achieve a lower U-Value, boosting their thermal efficiency.

The result – Lower electricity bills, and a happier planet.

Not sure which type of
climate you're in?

HIGH-PERFORMANCE DOUBLE GLAZED PRODUCTS

The two major factors of which are crucial to consider when selecting energy efficient windows and doors include both the U-Value, and the design.

The lower the U-Value, the stronger the window's resistance to heat flow, and the greater the insulation. When paired alongside a design that's configured for optimal thermal performance, the energy efficiency of the space is optimised, resulting in a higher star rating.

Essential Fixed Window

Signature Sliding Door

Essential Sliding Window

Which of our Double Glazed products are best suited for you?

To find out, get in touch with your local Bradnam's expert by visiting a showroom or contacting your sales representative.

Compliant with WERS

The Window Energy Rating Scheme (**WERS**) assesses the energy efficiency of the entire product – not just the glass. This enables windows and doors to be rated and labelled for their annual energy impact on a whole house in any given climate of Australia.

All Bradnam's windows and doors are WERS-compliant.

7-STAR WITHOUT COMPROMISING ON STYLE

As superior as Bradnam's windows and doors are in preserving the energy of the home, they are equally as stylish.

From sleek and classic options to curated and contemporary selections from the **designer** range – Bradnam's extensive catalogue ensures that there is an energy efficient solution to suit every aesthetic preference and lifestyle.

Each product within the range offers architectural symmetry – allowing selections to be mixed and matched according to the specific design and functionality requirements of each unique room.

Selected Bradnam's products are also available in bespoke sizing, meaning that residents can enjoy an expansive view and reap the benefits of plentiful natural light, whilst remaining cool in Summer and warm in Winter.

WHEN IT COMES TO 7-STAR HOMES, WE'RE READY.
