

THE **INDOOR** ANSWER  
TO OUTDOOR *Living*

Quality Innovative Constructions

## What is a Bi-fold Door?

A bi-fold door consists of multiple panels that fold back on themselves like a concertina, allowing them to slide open and stack to one or both sides of an opening. This design enables you to create wide openings in your wall.

Bi-fold doors can be installed both inside and outside your home. They serve as gateways to your garden or conservatory and can divide larger rooms without sacrificing the feeling of spaciousness.

## Ideal Location

Commonly used between entertainment areas such as a kitchen and patio area, exterior bi-folding doors create grand openings that span the length of an entire wall. With these elegant doors, you can effortlessly blend indoor and outdoor living, making every gathering more enjoyable and inviting.

# Choose your Bi-fold Door

Review and compare the features of our bi-fold door range. Select the grade that best suits your lifestyle, design and performance requirements: our architectural Signature door or Commercial grade door.

## Lifestyle & Comfort

### Night Latch

Locks the door from the inside without using a key.

### Keyed Alike<sup>1</sup>
