Lyke Homes

What is a louvre window?

If natural airflow is a priority for your home, then louvre windows are a clever, space-conscious solution. Featuring adjustable glass or aluminium blades, you can fine-tune airflow using a single handle. Lockable handles and optional security screens also offer extra protection against unwanted visitors without compromising functionality.

Ideal location

The ideal placement of louvre windows depends on your objectives. You can use them to maximise ventilation in areas like bathrooms, laundries, and hallways, or to control natural light in living rooms, kitchens, and studies. Positioning windows on opposite walls or at varying heights, and pairing them with ceiling fans, can enhance airflow.

Choose your Signature Louvre Window

Discover the features and benefits of our Signature louvre window range and select the style that best complements your space. A statement piece for modern homes, this window has been meticulously engineered to deliver exceptional quality, seamless operation, and enduring performance.

Lifestyle & comfort
