What is a sliding window?

Sliding windows have become a favourite in modern homes, gliding open along smooth tracks to let in fresh air. Because they sit snug against the wall, they are a smart solution for narrow walkways, patios, or intimate spaces where every inch counts.

With their wide, panoramic design, sliding windows are perfect for expansive openings. Their large glass panes invite sweeping outdoor views and flood your home with natural sunlight, creating a bright, welcoming atmosphere while reducing daytime lighting needs.

Sliding windows are effortless to use; a simple push or pull opens them with ease. Their straightforward design makes them accessible to everyone, while fewer moving parts mean dependable performance and minimal upkeep.
